## Preface

I am pleased to present a Relative study of the performance of schools at the Nagaland Board of School Education HSLC Examination for the last 7 (seven) years (2016 – 2022) and HSSLC Examination for the last 6 (six) years (2017 – 2022). The different percentages and averages presented in this study are calculated from the actual number of students enrolled as on 1<sup>st</sup> April of the academic year for HSLC and as on 1<sup>st</sup> June of the academic year for HSSLC.

This study is an attempt to assess/ evaluate the performance of schools, different range of qualified percentage and number of students securing 80% and above in aggregate for all the districts at the HSLC and HSSLC Examination over the above mentioned period conducted by the Board.

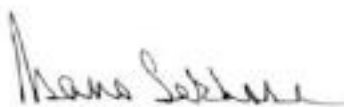

Some features and key focus of the book are:

1. Graphical representation
2. Institutions securing 0% qualified percentages
3. Institutions securing 100% qualified percentages
4. Institutions securing different range of qualified percentages
5. District-wise Qualified percentages during the mentioned period
6. Number of students/ candidates securing 80% & above in aggregate.
7. Overall performance on all the above points is depicted to know where the different categories stand.

I hope this relative study will help to identify where the different categories stand in relation to others' performance and inspire all stakeholders to achieve better performance in the coming years.

Though extreme care has been taken to make the book error free, I shall be grateful if any mistake or omission detected in the book can be brought to our notice. Your valuable feedback on the study is welcomed.

18<sup>th</sup> October 2022

  
( Mrs. Asano Sekhose )  
Chairman
