

**Nagaland Board of School Education
Kohima**

CIRCULAR

Dated Kohima, the 14th April, 2023

NO.NBE-8/Ad-Misc(10)/2023-24:: It is hereby notified for information of all that the Department of Water Resources, River Development & Ganga Rejuvenation, Ministry of Jal Shakti, Government of India, had launched a nation-wide campaign “**Jal Shakti Abhiyan - Catch the Rain**”, with the tag line “*Catch the rain, where it falls, when it falls*” to nudge the states and all stakeholders to create Rain Water Harvesting Structures (RWHS) suitable to the climatic conditions and sub-soil strata, with people’s active participation. An online course on the campaign, focusing on saving and conserving rainwater, was also launched by National Council of Educational Research and Training (NCERT) on the DIKSHA portal during March 2023.

In light of this, all Heads of Institutions are requested to create awareness among school children during morning school assemblies (at least twice a month) throughout the year, *on rain-water harvesting, water conservation, judicious use of water, recycling of water*, and so on. Rainwater harvesting methods can also be taken up in schools on a priority basis.

Furthermore, some of the best practices and solutions on conserving water sources adopted by the students as a result of this awareness are to be recorded, accompanied with two to three photographs. The report should be sent via email to nbsenag@gmail.com within **August 2023**.
